The Department of Military Science is a non-degree producing department. The ROTC Leadership Excellence Program is designed to complement the civilian goal of acquiring a baccalaureate degree in a personal course of study while enabling students to develop the knowledge, skills, and attitudes for commissioning. The program also enables those who plan a civilian career to fulfill military obligations while serving as an officer in the Reserve Forces.

The Department of Military Science is hosted by the College of Social and Behavior Science. The Department of Military Science is funded and resourced primarily by the United States Army Cadet Command. Program Reviews are conducted every three years by a Region Command known as Command Inspection Programs. Our last inspection was conducted on 22 Feb 06 with excellent or satisfactory results in all areas.

We met all objectives submitted on 2005-2006 Action Plans and are confident we will meet or exceed our goals and objectives set for 2006-2007.
